

## Salvation

Times around me standing still  
Deep inside my heart you´re with me  
I never forget the time, time with you  
How great it was

There´s the time, standing still  
Deep in my heart you´re still with me  
I never forget the time with you  
How nice it was, how great it was

I should have seen the signes  
The one who loves, deserves to fall  
I have spent every night in mourning sorrow in grief and  
pain  
I finally see the light  
The one salvation, the end of game

Times around me standing still  
Deep inside my heart you´re with me  
I never forget the time, time with you  
How great it was

Darkness sends a shadow over the gift of love  
Poisoned heartbeats pump salvation  
Through the body once filled with love  
Yet left to fall into its grave
