

Sleepless in a nightmare

I wanne break out of everything
Of every nights nightmare that I'm in
Pull me out
Of my constant fear
To loose control that I'm so tired of
I wanne break out
Of closing my eyes seeing terrible things
I'm so frightend of
Oh pull me out
Of not talking about, not to be jeered
You know you'll never know

I'm afraid at night
I'm afraid to die

I wanne break out
Fleeing from these noises, hunting me
Like pictures in my head
Help me out
It's following me, the bending machine overpowers me

I'm afraid at night
I'm afraid to die

My eyes stay awake
My head is asking why
It's so fucking hard
Time's not going by

Pull me out
üI wanne break out
Before it's tearing up me,
Before my mistrustness destroys me
Help me out
And wake me up
Before this nightmare kills me

I'm afraid at night
I'm afraid to die
